

The Shopify of AI agent marketplaces — for MyInstantAI

First-to-market platform: merchants don't build payment rails — you shouldn't rebuild an agent catalogue, studio, trust layer, and regional packs from scratch. **220 agents · 3,500+ evals · US / EU / Africa / Asia** — ready to sit on your identity, wallet, models, and Azure.

First to market

Platform license

August 2026

220

AGENTS INCLUDED

3.5k+

EVAL CASES

4

REGIONAL PACKS

~\$909

PER AGENT / YEAR

01 Why this is worth \$200k

Shopify didn't win by selling "a few themes." It won by owning the **marketplace + commerce operating system**. Agents is the same bet for MyInstantAI: a first-party surface where every customer can browse, configure, connect Actions, embed, and meter prepaid tokens — with a deep catalogue already localised for four regions. Competitors shipping a chatbot wrapper are months behind this stack.

First to market

Ship a branded agent marketplace while peers are still prototyping. Category ownership compounds; delay costs mindshare and deal cycles.

Depth × breadth

55 families × 4 markets = 220 catalogue-ready packages (~2.5M chars prompts/knowledge, 936 tools) — not a thin demo set.

Security & trust

OIDC + workspace RBAC, audit isolation, AES-256-GCM OAuth tokens, HMAC embed keys, CSP, DSAR export — Trust Center with honest Live / Partial / Planned tags.

Regional compliance

Market packs encode US CCPA/TCPA, EU GDPR, Africa POPIA-style, Asia PDPA-style guardrails — not one global prompt pretending to be local.

Evals as quality IP

~3,566 eval cases (~16 / agent) — regression harness for grounded answers, confirm-before-write, and cross-tenant refusals.

Build vs buy

Rebuilding platform + catalogue in-house is years of specialised work. At **~\$909 / agent / year**, the license is a fraction of one senior team.

Commercial intent: \$200k annual platform license (full 220) · \$30k / mo support & new agents · rev-share on end-customer rental (50/50) and tokens (20% MD / 80% MIAI). What remains is agreement + cutover — not invention.

COMMERCIAL PROPOSAL

Proposed commercial terms

You are licensing a category-defining operating system for agents — marketplace, catalogue IP, trust & regional packs, evals — not renting six demos.

02 What the license buys

LAYER	INCLUDED UNDER \$200K / YEAR
Marketplace OS	Catalogue, Studio, Actions/OAuth, knowledge, sandbox & live chat, embed, wallet metering, Live Ops, Insights, Admin, Trust Center
Catalogue IP	All 220 agents day 1 — prompts, knowledge, 936 tools, guardrails, prepaid SKUs
Quality system	~3,566 evals; confirm-before-write workflows; honest capability tags
Trust & regions	Security controls + US / EU / Africa / Asia market-pack compliance posture
Cutover path	OIDC, wallet, model gateway adapters; Azure Bicep + 30-day runbook; staging live now

03 Fee structure

ANNUAL PLATFORM LICENSE

\$200,000 /year

Marketplace OS + full 220-agent catalogue — ~\$909 / agent / year. Annual, renewable. Not a limited SKU pilot.

MONTHLY SUPPORT & DEVELOPMENT

\$30,000 /month

Keep first-mover edge: support, maintenance, new agents & connectors after go-live (~\$360,000 / year).

04 Revenue share — end-customer usage

MyInstantAI remains customer of record. End-customer rental & token packaging split:

Monthly agent rental — 50 / 50

MOVE DIGITAL

50%

MYINSTANTAI

50%

Catalogue IP + quality (MD) · brand & distribution (MIAI).

Token top-ups — 20 / 80

MOVE DIGITAL

20%

MYINSTANTAI

80%

Majority to MIAI — model, wallet, and infra on your rails.

05 Year-one economics (illustrative)

COMPONENT	TO MOVE DIGITAL	NOTES
Annual platform license	\$200,000	Full 220-agent entitlement
Support & development	\$360,000	\$30,000 × 12 months
Agent rental share	50% of rental	Variable — scales with adoption
Token top-up share	20% of top-ups	Variable — scales with usage
Fixed year-1 floor	\$560,000	License + retainer (before rev-share)

Clarity: license = platform + full catalogue. Rent/tokens = end-customer packaging on MyInstantAI (shared above). Demo 6 is UAT depth only — not commercial scope. Fixed year-1 floor before rev-share: **\$560,000**.

How we deliver together

06 Partnership roles

TOPIC	PROPOSAL
Move Digital	Delivers & integrates Agents Marketplace; catalogue quality; staging ops; joint run post-cutover
MyInstantAI	Owns customer auth, wallet, models, primary Azure tenancy, brand, and end customers
Product home	Agents under MyInstantAI domain as a first-party surface
IP	License of agent packages / presets to MyInstantAI; Move Digital retains reusable IP
Operations	Joint 90 days post-cutover, then named primary operator

07 30-day cutover plan

Week 1 Commercial principles locked; staging OIDC, wallet, and model gateway credentials received.	Week 2 Marketplace pointed at your staging rails — login → activate agent → chat → debit.
Week 3 Custom domain + OAuth redirects; UAT on demo shortlist; Live Ops / health green.	Week 4 Cutover rehearsal (Migration Runbook); production go-live checklist; backlog for next connectors.

Day-30 success: a MyInstantAI user can SSO in, use an agent from the licensed catalogue, run a tool-backed conversation billed to your wallet, on your hostname.

08 Already built (staging)

CAPABILITY	STATUS
Catalogue — 55 × 4 markets (220)	Catalogue-ready
Product loop — browse → configure → Actions → embed → tokens	Live on staging
Multi-step workflows (confirm-before-write)	10 families
Trust Center, Admin, Insights, custom requests	Live on staging
Connectors (e.g. Slack, Calendar) + OAuth path	Staging / extendable
Azure path + Railway → Azure runbook	Documented

Staging: <https://miaiweb-production.up.railway.app> · Demo pack /demo · Trust /trust

NEXT STEPS

Asks & proposed close

09 Required from MyInstantAI

ASK	OWNER	✓
Commercial sign-off on terms in §03–04 (or marked counter)		☐
Staging OIDC — issuer, audience, JWKS, sample JWT		☐
Staging wallet API — debit / balance / top-up		☐
Model gateway — base URL, auth, tool-calling		☐
Azure subscription / region owner		☐
Production hostname / DNS for Agents + embed		☐
WhatsApp WABA / BSP ownership		☐

10 Proposed Monday close

- ☐ Agree **annual platform license \$200,000** for full 220-agent catalogue
- ☐ Agree **monthly support & development \$30,000**
- ☐ Agree rev-share: **agent rental 50/50** · **tokens 20% MD / 80% MIAI**
- ☐ Name owners for Auth, Wallet, Models, Azure, Commercial
- ☐ Set date for staging credentials and next working session

11 Commercial snapshot

LICENSE
\$200k / yr

220 agents · ~\$909 / agent / year

RETAINER
\$30k / mo

Support, maintenance, new agents

UPSIDE
Rent 50% · Tokens 20%

Move Digital shares · rest to MyInstantAI

Ready when you are

Staging is live for walkthrough. Move Digital is ready to start Week 1 as soon as commercial principles and staging credentials are confirmed.
